

2008 Chlorophyll *a* Round Robin
Participating Laboratory

USGS National Water Quality Laboratory

The North Carolina Division of Water Quality would like to express our sincere gratitude for your laboratory's participation in the 2008 chlorophyll *a* round robin. Your efforts have served to raise the analytical quality of chlorophyll *a* analysis in support of the Division's mission to preserve, protect, and enhance North Carolina's surface waters through quality self-monitoring programs.

Coleen Sullins

Director, NC Division of Water Quality
